

Kingsweston Centre @ Shirehampton

Maths

Place value – compare and order numbers, counting forwards and backwards in steps of 2, 5 and 10 from 0. Recognising the place value of each digit in a two-digit number.

Money – Recognising coins, making different values and working out change. Solving problems using money.

Division – recognising the division sign and solving one step problems using objects, pictures and arrays with support.

PSHE Jigsaw topic – Changing me

Body image and changes, puberty and growing up.

Diamond Class Term 6 – Plants and Animals

Science

Plants and Animals

Identifying common wild and garden plants including trees and describing their structures.

Recognising the life cycle of plants and beginning to understand pollination and fertilisation.

Investigating what plants need to grow and how they transport water.

Identifying minibeasts and their microhabitats.

Investigating how minibeasts keep microhabitats healthy.

Literacy

Reading:

Reading play scripts and understanding the features.

Writing:

Identifying the features of play scripts and including them when writing a short play script.

Speaking, Listening and Drama: Acting out play scripts and role plays.

Art and DT

Creating a collage all about ourselves using different media.

PE

Swimming and contact sports with a specialist sport coach.

Extended school visits

Exploring the local area and identifying different plants and trees.

ICT and Music

Exploring making sounds and recording them using music making apps to use alongside play recordings.

Home activities

Reading. Using money in shops. Gardening.
