

# Moon Class - Term 1

## Maths

Number: Number recognition, number formation, higher and lower, simple addition.

Shape, Space and Measure: We are measuring heights and comparing lengths, and also comparing weights with 'heavier' + 'lighter' as key word

## History

In this term we are making our family tree. We will be looking at who is in our family and writing their names.

## Literacy

Speaking: We are learning the names of our peers and the adults who work with us, and will share our likes and dislikes.

Listening: We are developing our listening skills to answer who, what, where, when question types.

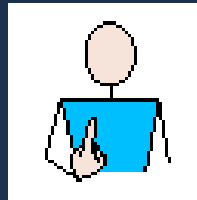

Writing: We are creating our own short fictional stories.

Reading: We will have a new short story each week, as well as personal reading books. Some will have books for home.

## Design & Art

We are learning about colours and using Art this term to focus on emotions. This will be extended to begin focussing on abstract portraits.

## All About Me

## PE

This term in PE we are playing rugby. We are choosing the right clothes to play sports and practicing getting dressed. We are then focusing on bouncing a ball to a peer and catching.

## Food Technology

We are practising cutting, grating and spreading. We are learning about food hygiene how to stay safe. We are making tortilla pizzas and choosing our toppings.

## PSHE

Throughout the year we will be playing team games and working on social skills, linked the Thrive Approach principles.

In addition to this, we are learning about healthy and unhealthy - with a focus on diet and exercise, linked with PE.

## Geography

We are learning about 'where do I live', with a focus on being able to communicate our address, giving and following simple directions, and understanding where we are in the World.
