

Rocket Class - Term 4 Topic Plan 2019-20

Maths

Number - We are learning to recognize numbers up to 5 and link the same amount of items to these numbers.

We are singing numbers songs related with up, down, and part of your body names.

Shape, Space & Measure - Position & Direction, using a bee robot, understanding backward, forward, left and right concepts.

PE

Using different forces to play ball games passing and throwing, using bodyguards to push themselves.

Topic

This term we are covering the topic of 'Fairground.' We will be looking at different games and activities and travelling families This includes:

Science - Forces - Pushes and pulls within fairground games. Electricity - making circuits

Geography - Traveller lifestyle, putting up a tent, investigating piers.

Design & Art - Making a rollercoaster using papers with different colours.

English

Language and communication - Individual speech & language targets, learning new symbols or words

Reading - Phonic knowledge reinforcement/reading comprehension, describing photos.

Colourful semantics to read and write sentences related with our term topic.

Wow days/ school visits:

Holding a fairground in our class, with different games and food for other classes to visit

Fairgrounds

PHSE

We follow the ASDAN New Horizons course, we will be learning about: Occupations of people who help us
