

Post 16 - Term 1 Topic Plan 2020-21

Maths

Using money by adding coins together to make an amount
Focussing on number skills for addition and subtraction

English

Each day pupils will be recalling what they have done, how they feel, following instructions and sequencing sentences along with communicating with alternative devices and symbols.

Planning for New Situations

We will be talking about how we feel coming back to school and getting used to our new group and surroundings. Discussing safety, hand washing. We will be looking at different jobs and the uniform and tools that might be needed. We will be thinking about what options we have for when we leave school

Popular Music

We will be listening to and choosing music we like from many different genres. We will be using percussion instruments to follow a rhythm and using ICT to create sounds.

Health Action Plan

We will be looking at foods that we can eat 'all the time' and 'treat' foods. We will be making healthy snacks. We will be investigating different ways to exercise and trying out various ways to keep fit and healthy

PE

We will be using different equipment to practice our balance and coordination skills. Using the outdoor gym to exercise and have fun!
