

Moon Class – Term 2 Curriculum News!

English

We have stories linked to travelling and are also reading non-fiction resources. We are writing post cards and creating our own Moon Class Travel Brochure!! We are continuing to reading with adults 1-1 and also work on CVC words and phonics. We are also working on letter formation, writing our names and using adjectives in our speech and writing.

We are working on our communication targets throughout the curriculum, with support from Sam, our speech and language therapist!

PE

Our current topic in PE is dance! Sessions are led by Dec, a Bristol Bears coach! We are also continuing to use the amazing outdoor gym! Some dances will be linked to cultures around the World!

We are also learning about different sports around the way, and will also have some Gymnastics sessions with a focus on 'travelling' e.g. different types of rolls.

Other Events

We continue celebrating each other's birthdays, we have enjoyed Moon Class karaoke! Show and Tell on Fridays has also been great fun!

Science + Humanities

Geography – We are learning about where we live and our place in the World. Also learning about different continents and a focus on South America!

History – We are learning about the history of travel and inventions over time!

Science – We are learning about different materials and their properties. We also have regular Science experiments during our bucket sessions

Expressive Arts and Design

We are using iMovie to make 'advertisement' trailers advertising different locations to travel to!

We are also using various building resources to design and create our own 'vehicles' e.g. Lego cars and cardboard trains.

We are also learning through play the class love challenges using Lego or playdough!

Maths

We are continuing to learn about numbers including counting, number formation, number recognition, solving number problems using addition and subtraction, all linked to our Travel topic!

We are also learning about shapes and measuring distances.

Finally, we are learning about time, and will even have weekly time trials for methods of transport!

Check out the class Padlet for activities to do at home!
