

Maths

We are continuing to work towards accreditation – the term has started with a focus on rounding numbers (including developing understanding of decimal place value for some) and we will be going on to look at using these numbers in practical contexts.

English

We are working on writing for different purposes. There will be a focus on looking at how we present text in different ways. As part of this we will be creating a class magazine.

Current Affairs

Students are looking at events currently taking place in the UK and abroad and taking part in discussions and sharing opinions about these issues.

This term is looking very different for us. We are divided into two groups, one based at our Napier Miles site and one group learning from home.

Ashley Down Term 3

Art

Students have two Art sessions a week: one taught by Julia Stenton who is KWS's new Art curriculum specialist, and the other taught by Kat. Julia's sessions focus on specific art techniques like mono-printing and sketching. Kat's sessions focus on crafting with paper and other materials, and will explore themes of upcycling.

Home learning

Home learners are taking part in 3 Zoom lessons per week. We have also set up a class padlet and have asked students to make some decisions on the content they would like included on this.

Gardening/ Forest School

We are helping out by making ourselves useful with a range of tasks in Napier Miles' outdoor areas; sweeping, digging, litter picking, pruning etc. We are also getting out for daily walks.

PSHE

Our topic this term is relationships. We are looking at different aspects and types of relationship and considering what is healthy and unhealthy.

Personal Project

School based learners are continuing to work on their individual area of study
