

Maths

Level 1

We will be working on interpreting and drawing scale diagrams, revisiting area, perimeter and volume, and then focusing on several aspects of geometry.

Entry level

A focus on shape, including different types of triangle, as well as looking at symmetry.

English

This term we have a focus on punctuation, revising our knowledge of how and when to use this. We are also continuing to work on writing for different purposes. Towards the end of term will be sharpening our speaking and listening skills with some debates.

Current Affairs

Students are looking at events currently taking place in the UK and abroad and taking part in discussions and sharing opinions about these issues.

Personal Project

School based learners are continuing to work on their individual area of study

This term continues to be different for us. We are divided into two groups, one based at our Napier Miles site and one group learning from home.

Ashley Down Term 4

Art

Students have Art sessions weekly, taught by Julia Stenton who is KWS's new Art curriculum specialist, and the other taught by Kat. Julia's sessions focus on specific art techniques such as mono-printing and sketching.

Careers

Continuing with the Talentino programme of study, students are considering what they may want to do in the future and how they may go about achieving this.

Home learning

Home learners are taking part in 5 Zoom lessons per week.

Community Access

We are beginning to get out into the community again. We are walking to Shirehampton once per week to use the shops, and also using the minibus to access different areas of Bristol for extended walks.

Gardening/ Forest School

We are helping out by making ourselves useful with a range of tasks in Napier Miles' outdoor areas; sweeping, digging, litter picking, pruning etc.

PSHE

This term we are continuing to look at relationships. We are looking at different aspects and types of relationship, including marriage, civil partnership and co-habiting and considering what is healthy and unhealthy.

Business Enterprise

We are beginning a new cycle of business enterprise initiatives, in which students will plan, make and market a product or service, then evaluate their experience at the end of the process.
